

Before the First Visit

Please discuss the positive aspects of dentistry with your child. One way to convey good feelings to your child about dental visits is to remind them that going to the dentist is a sign that they are "growing up". You can explain that Dr. Banks will count their teeth, as well as take pictures of his/her teeth. Please do not tell your child that the "dentist will not hurt" as this may never have entered his/her mind. Instead, you may wish to assure your child that Dr. Banks will be gentle and friendly. Expect your child to do well and enjoy their visit to our office and chances are he/she will do exactly that!

Imagine a Dental Office that your Kids will Love!

Jessie M. Banks DDS

Dr. Banks strives to focus on educating both parent and child about optimal dental health. Every effort is made to help your child learn how to take care of their teeth and hopefully be cavity-free throughout their life!

Our office is designed
Just For Kids!

All About Dr. Banks

Dr. Jessie Banks completed her pediatric dental residency and internship at Texas A&M University-Baylor College of Dentistry and received her D.D.S. from the University of Washington. Dr. Banks has extensive

experience in working with children who require special needs through her residency training at Baylor's Dental Clinics, Children's Medical Center and Texas Scottish Rite Hospital for

Children. Dr. Banks has also completed her Board Certification in Pediatric Dentistry and is a Diplomate of the American Board of Pediatric Dentistry.

The Mission

We are committed to provide the highest quality care and customer service in a fun and educational environment. We strive to build positive relationships with our patients, while helping them achieve a healthy smile!

The Goal

- Treating your child as a part of our "Kitsap Kids" family.
- Building a positive dental experience for your child, as well as you the parent.
- Providing the foundation for a future of successful dental care.

All About Our Office

- We are specialists in Pediatric Dentistry. We are able to treat all kids, from the special needs child to the extremely apprehensive.
- Parents are welcome to accompany their child during their visit. We want this to be a pleasant visit for both parent and child.
- We offer digital radiography, which decreases the amount of radiation your child receives, compared to regular x-rays.
- Your kids will enjoy the playful, enthusiastic atmosphere of our office with our friendly energetic staff.
- We have lots of toys, games, puzzles, legos and books for your children to play with during their appointment.
- We have an exciting website ● www.kitsapkidsdentistry.com
- On our website, you will find an abundance of information, motivational charts, coloring books and games. Also, our new patient forms are available for download if you would like to complete them early.
- We offer insurance assistance. We file your claims for you electronically and communicate with your insurance company until your claim has been processed to ensure payment.
- We also accept several forms of payment such as: Cash, Checks, Care Credit & major credit cards.
